Mr. Dinsmore,

OSMRE provided a copy of the show cause letter to Red River that I had requested from EPA a couple weeks ago.

I noticed there were two outfalls/discharges, not included in Table 1, for which Red River does not have a NPDES permit. These outfalls were either deleted or moved after pond removal just like the other outfalls included in the table. I don't know if there was good reason for not including these outfalls in the letter, or if they were simply overlooked during EPA's review. The outfalls are 004 on PN 1100044 and 010 on 1101760. Could you please pass this information on to the appropriate EPA staff?

I misplaced my notes from our phone conversation. Is Mr. Zolandz the appropriate EPA contact if I had general questions about the enforcement process?

(b) (6),

I think we can get you that in very short order, as your request is very specific and concise. Once your request is processed, we will either send you a copy of the Show Cause letter or contact you to discuss further.

Feel free to contact me this afternoon as well, if you'd still like.

Thanks!

Andy Dinsmore

Acting NPDES Enforcement Branch Chief

US EPA, Region III

Mr. Dinsmore,

I got your message. Thank you for returning my call. I'm in the middle of something but will try giving you a call after lunch.

I have requested information using FOIAonline before, and it usually takes several months to get information. As I explained, I am facing a time limit, so I am sending the request directly to you and have ccd FOIA staff:

Under the Freedom of Information Act, I request the following: September 20, 2016 EPA Region 3 show cause letter to Red River Coal. I request an electronic version of this document be emailed to me at

Thank you,
